

Call for projects 2025 - N° 2 - Clinical research in cardiology

The Belgian Heart Fund and the Fund Fernand Léonard were created to support research in cardiology in Belgian institutions.

The Belgian Heart Fund was created in collaboration with the Belgian Society of Cardiology.

The two Funds are managed by the King Baudouin Foundation with the help of a Fund Steering Committee. Research projects are reviewed by an independent scientific jury.

The Funds are launching a call for projects in the field of **clinical research** in cardiology. *

Subject of the call

The call concerns non-commercial projects for **clinical research** in the field of cardiovascular pathology. The research must be centred on the patients and aimed to determine the role of medication, intervention, diagnosis, symptoms or prevention in the physiological or pathological processes of the cardiovascular system.

Eligible applicants

Project

The project is in the scope of the call and meets the scientific criteria. The project has not been awarded yet with a grant or prize from one of the participating funds.

The same project can't be introduced in the framework of one of the other ongoing calls of the Belgian Heart Fund (see*).

The project has to be initiated and carried out, at least for the largest part, in one or more Belgian institutions.

Organizations

The Foundation will only fund not-for-profit medical organizations.

Main applicant

The call is open to researchers employed for more than 2 years in a not-for-profit medical organization. Main applicants of the selected project should be a Member of the Belgian Society of Cardiology.

If the main applicant has been awarded a BHF award previously, the current project will only be taken into consideration if all activity reports due before the end date of this call have been received by the fund secretary.

Collaborations

- Collaborative projects are encouraged. In case of a multicentre clinical trial, we refer to call nr 3 (see *).
- Projects that involve collaboration between research teams internationally must be initiated and coordinated by the team based in Belgium.

Selection criteria

Scientific quality of the project

Quality of the research

- Design, including a timeline, statistics, sample calculation, feasibility, potential etc.
- Innovative approaches
- Relevance/added-value of the research to existing knowledge/clinical practices
- The project addresses clearly identified medical or allied health issues related to cardiovascular diseases

Potential impact

- of the research for patients, their family and/or professionals
- of the results on diagnosis/treatment/quality of care/quality of life

Track record

- Track record and career potential of the main applicant
- Potential of the research team and – in case of multicentre project – collaborating teams (scientific environment, competence, experience...)

Budget

- Feasibility of the research and the adequacy of the budget

Grant

- 1 to maximum 3 high level research projects will be supported. Maximum amount per project: €20.000.
- No overhead can be deducted from this grant. The entire amount of the grant must go to the researcher and his team.
- The support can be used for all costs related to the project.

Procedure

If you are interested, please submit **an online application** via the website of the King Baudouin Foundation www.kbs-frb.be. Applications should be submitted **in English by 08/09/2025** at midnight at the latest. Candidates will receive an acknowledgement of receipt.

Selection

Applications will be submitted to an independent scientific jury. The jury will assess the projects and will draw up recommendations for the Steering Committee of the Fund which will make the final decision. The decision will be published in January 2026. The grant will be officially awarded at the annual congress of the Belgian Society of Cardiology planned in January 2026.

Contact

- For technical assistance during the application process:
Contact center – Tel +32-(0)2 500 45 55 – info@kbs-frb.be
- For information regarding the call:
KBF: Laetitia Aerts – Tel +32-(0)2-549 02 33 – aerts.l@kbs-frb.be

Belgian Heart Fund / Fund Fernand Léonard

*** Interested in support for research projects in other domains of cardiology? Have also a look at the other ongoing calls:**

N° 1. Basic research in cardiology, launched by the Belgian Heart Fund, Fund Walckiers-Van Dessel and Fund Fernand Léonard.

N° 3. Call for Multicentre clinical trials, launched by the Belgian Heart Fund.

N° 4. Prize Léon Dumont, launched by the Belgian Heart Fund.

Information on all these ongoing calls is available on the websites of the King Baudouin Foundation and of the Belgian Society of Cardiology.

Please note that one same project can only be introduced once, parallel introduction of the same project in different calls is not allowed. On the other hand, a candidate or team can submit different projects for different calls.

With thanks to the Belgian Society of Cardiology and its major sponsors, including the Fund for Cardiac Surgery and the BHF donors, for their valued support.

King Baudouin Foundation

Working together for a better society

The King Baudouin Foundation's mission is to contribute to a better society in Belgium, in Europe and elsewhere in the world

It is an actor for change and innovation, serving the public interest and increasing social cohesion. It seeks to maximize its impact by improving skills in organisations and for individuals. It also stimulates effective philanthropy by individuals and corporations.

The King Baudouin Foundation was set up in 1976, on the 25th anniversary of King Baudouin's reign.

With thanks to the National Lottery and its players, and also to our many donors for their ongoing commitment.
